

Seven Army Airmen Missing in Panama Canal Zone Crash

Bomber Falls Into Bay; Air-sleeper Tragedy is Investigated

Balboa, Canal Zone, Feb. 28 — (AP)—Seven United States army airmen—three officers and four enlisted men—were missing today in the crash of a bomber which fell into Panama Bay late yesterday, the fifth accident involving Air Corps craft in the Canal Zone this month.

The army announced the names and addresses of the missing as: Lieut. Jack Schock, New Ulm, Minn.; Lieut. Reuben Mayne, Loma, Colo.; Lieut. Mack Stephenson, Lancaster, Ohio; Sergeant Arthur Zence, Brooklyn, N. Y.; Sergeant Elmo Solberg, Richland Valley, Mont.; Corporal Frank Wacławski, Utica, N. Y.; and Private Norman Cohen, Rochester, N. Y.

The B-18 bomber, which belonged to the 99th squadron stationed at Rio Hato, plunged into the bay a short distance from the Pacific entrance to the canal. It burst into flames upon striking the water.

In previous accidents this month, two pilots were killed in separate pursuit plane crashes on February 12 and one pilot was killed the next day. There were no fatalities in the fourth crash.

PROBE LINER'S CRASH

Atlanta, Feb. 20—(AP)—Three independent groups arranged today to investigate the crash near here of Eastern Air Lines' almost-new, \$120,000 air-sleeper, which killed seven persons and injured nine, including Eddie Rickenbacker, famed World war pilot and president of the company.

The big ship, enroute from New York, smashed into a pine woodland about midnight Wednesday as it swung several miles from the airport to come in for a landing.

Rickenbacker, who was last to be pulled from the wreckage when searchers found it at dawn yesterday, was reported "some better" today by Piedmont hospital attendants. He suffered a re-break of an old hip injury received in his auto racing days. Rickenbacker's physician gave him "better than an even chance" to recover.

Rickenbacker Cheerful

Upon reaching the hospital, Rickenbacker said cheerfully, "Tell the boys I'll be out in three or four weeks."

H. A. Littlefield, assistant managing editor of the New York Times, and C. M. Tappen, New York City oil company executive suffering from a fractured vertebrae remained in a serious condition at a hospital.

The Civil Aeronautics Board began immediately a preliminary investigation, but inspectors said it would take two or three days to dismantle the motors and check other parts of the wreckage.

Gov. Green Speaks at Michigan GOP Meeting

Grand Rapids, Mich., Feb. 28.—(AP)—The Republican party's "greatest opportunity for service" Governor Dwight H. Green of Illinois declared last night, in meeting the demand for efficiency, economy and honesty in government.

The recently-elected Republican governor spoke at a Lincoln celebration sponsored by Kent county Republican clubs.

He appealed to the party to oppose centralization of authority by making state and local governments "so effective in meeting the needs of our people that they themselves will halt any menace from a central seat of power."

"In these days of doubt and unrest," he declared, "we must give serious thought to the preservation of local governments, despite the threat of war, on the crisis of actual conflict."

Green said again philosophies of "hate and intolerance" must be combatted as a measure of national defense.

Six Burn to Death in Beds in Missouri Home

Chicago, Feb. 28.—(AP)—Light snow fell today from the Mississippi valley eastward to the Atlantic coast, only New England and the southern portion of the east Gulf states escaping the storm.

Light falls were reported from as far south as Birmingham, Ala., and Atlanta, Ga. The snow, and rain in the Pacific states, was attributed by meteorologists to low-pressure systems off the middle Atlantic coast and over Montana, plus the approach of a storm of considerable intensity on the coast of northern California.

Dixon Guardsmen Depart for Camp Forrest March 19

Company A of Dixon and other northern Illinois units of the 129th Infantry, Illinois National Guard, will leave March 19 for their training base at Camp Forrest, near Tullahoma, Tenn. Maj. Gen. Samuel T. Lawton announced in Chicago last night, The 12,000 officers and men of the 33rd division will be in Federal service after 12:01 A. M. March 5, the induction date, and will be quartered in armories in their respective cities until they leave for camp. Advance detachments will leave by motor March 8 for Tennessee, and the remainder of the troop movements, all of which will be by train, will be completed between March 11 and March 23. Rear detachments for each unit, traveling by motor, will follow their main bodies of troops by two days.

CAMP PREPARATIONS

Camp Forrest, Tenn., Feb. 28.—(AP)—Twenty-five regular army officers—most of them up from the ranks—and a handful of seasoned enlisted men will provide much of the guidance for the 31,000 National Guardsmen who soon will make this their home for a year.

The Guardsmen, coming from Illinois, Tennessee, Colorado and Ohio, have heretofore drilled only periodically.

Although several of the National Guard officers have seen war service or have served with regular troops, many of them have found little time in their business lives to refresh their military education or keep up to date with rapid changes of army organization and regulations.

Thus it will fall to those who have made the army their career to lend helping hands until the Guardsmen get into the swing of military life.

Adler Heads Corps

Heading the corps of regular army officers is Lt. Col. Carl J. Adler, 54, veteran of 36 army years. He will serve as camp commander until Maj. Gen. Samuel T.

Most of Highways in Illinois Are Slippery

Springfield, Ill., Feb. 28.—(AP)—Highways over most of Illinois were slippery today with packed snow and ice.

The state highway division said all roads were open, but warned that driving conditions were hazardous due to a brief but heavy snowstorm last night, followed by a sharp drop in temperature.

In Springfield the snowfall measured two and a half inches in a storm which at times approached blizzard proportions. The temperature dropped about 20 degrees to 16 above zero.

The state highway police early morning bulletin said roads were mostly clear of snow and ice only in the east-central section of the state, within the area between Mt. Carmel, Mattoon, Decatur, Kan-kakee and the Indiana line.

From Avant L'Oeuvre to Timbale de Terre, Champs Elysees, 'Twas Great

Chicago, Feb. 28.—(AP)—Fifty chefs sat down to a culinary classic last night, but no heavy alcoholic or tobacco fumes ventured out into the air about them—until after demi-tasse.

"Strong drink dulls the taste and tobacco dulls both taste and smell," explained the appetite experts.

The visiting chefs, guests of the Chefs de Cuisine Association of Chicago, sipped American-produced wines and pronounced them equal in body, flavor and color to the imported variety cut off by the war.

The dinner started with avant l'oeuvre and sherry aperitif. Sher-

Maloney Defends, Wheeler Blasts British-Aid Bill

Senate Hears Eleventh Day of Debate on Fateful Measure

Washington, Feb. 28.—(AP)—Senator Maloney (D-Conn.) told the senate solemnly today that if it defeated the British aid bill, the psychological effect might well be "disastrous" for England, her allies and the smaller nations of the world.

The stocky Connecticut senator took the floor at the opening of the eleventh day of general debate to appeal for speedy passage of the bill.

The time has come, he asserted, for "action—not debate."

While the nation might not be able to avoid war, he said he believed the bill offered the best hope of peace.

Should the lease-lend program be voted down, he declared in a prepared address, "all over the world, east and west, men may surrender their hopes and their aspirations and the curtain may not rise again for generations.

The magnificent courage of Britain might falter if this country—through misguided action—should callously leave the English man to his fate.

To Germany, he said, such an eventuality would bring "rejoicing," renewed strength to Germany, and "none of us wants that consequence."

Believes in President

Maloney announced to his colleagues that he was willing to vote for a grant of extraordinary power to the president because he believed, and "the overwhelming majority" of the people believe that "Roosevelt would exercise such authority 'with prudence and with wisdom.'"

The pending bill, he said, would "legalize" an accepted policy of giving aid to Britain, expediting and making such aid effective.

"Admitting that we increase our safety through Britain's success, we should do all possible to help toward that success, short of involvement," instead of sitting back and awaiting "perhaps our turn."

Many seemed to think, Maloney continued, that a vote on the bill was a vote on the question of war or peace.

"Actually," he said, "we are at war in a kind of way. It is a war declared upon our right to live as we desire. The totalitarian dictators have themselves—in speeches indirectly aimed at us—declared that war."

Wheeler Takes Floor

Then Montana's Burton K. Wheeler, implacable foe of the bill since the day of its introduction, denounced it unsparsingly as legislation which would "strip us of our defenses, invite the chief executive to declare war, and create a dictatorship."

It was a hammer-and-tongs attack, with barbed flings at the president, at Wendell L. Willkie, "international bankers," "court satellites," and "nameless ghost-writers" whom he aligned behind the bill.

Senator Wheeler, a Democrat, omitted any reference to President Roosevelt's assertion of last night that the administration "confidently" anticipated early enactment of the lease-lend program as an "all important factor" in hemisphere defense.

Roosevelt, in a radio broadcast to the motion picture awards dinner at Hollywood, declared that the United States' defense "involves the defense of all the democracies."

Off to Bad Start

Chicago, Feb. 28.—(AP)—The nation's automobile and truck drivers got off to a bad start this year. 2,760 persons were killed in traffic accidents in the first month of 1941, or nine per cent more than in the same month last year.

In announcing the statistics, the National Safety Council said today that travel in northern states probably was normal in January because relatively few roads were closed by adverse weather conditions.

ry came again with the turtle soup course of tortue verte, amontillado and pates d'au parmesan. Then after such knick-knacks as coeurs de celeri, olives verte et mure and amandes et noix sales came the fish course—pau-piettes de sole a vol-au-vent with a California white wine.

Bourgogne, a New York red wine, was served with the main course—supreme de coq au vin (breast of duckling). Asperges fraiche, Hollandaise and timbale de pomme de terre, champs elysees rounded out entre.

After a chef's salad, fruit cookies and macarons, the meal was concluded with demi tasse, California cognac, cigars and cigarettes.

Bethlehem Steel's Lackawanna Strike Settled This Morn

(By The Associated Press)

The strike at Bethlehem Steel's Lackawanna, N. Y., plant ended today with the C. I. O.'s acceptance of a formula drafted by the defense commission in its anxious efforts to keep production flowing.

Government officials, cheered over this, also found pleasure in the settlement of a smaller strike, by the A. F. of L., at the National Supply Company in Philadelphia. A representative of the company, which makes Diesel engines for the navy, said "substantial wage increases" were granted.

President Roosevelt told a press conference today that all kinds of proposals for mediation of defense industry disputes with labor were under study, and whether any of them would be adopted remained to be seen.

He made this observation when asked about reports that Secretary Perkins was working with the Office of Production Management on some special mediation arrangement.

He said he did not know what, if anything, would be done beyond what is being done now. He recalled that in the first World War there were various sets of machinery created, but anything along those lines for the present situation was entirely in the study stage.

He told a questioner that he had nothing to do with the agreement to settle the Bethlehem strike.

He got the divorce.

Nazi Troops in Battle Array Reported Moving Through Rumania Today

The War Today!

By DEWITT MACKENZIE

Announcement in Ankara that Britain and Turkey have reached "full agreement on all points" concerning the Balkans and the Mediterranean is calculated to convey the impression that the two have decided to work as a unit in meeting any German military advance down the peninsula.

Quite possibly that is the exact position, and it undoubtedly is significant that they have reached full accord in such a short time. It strikes me, however, that we need more information before assuming that the Turks have promised to resort to arms to meet any and every Nazi threat. It doesn't help us much to know that the Ankara parley agreed on all points when we don't know what the points are.

The whole tense situation has for the moment resolved itself into high-powered diplomatic attack by Germany and England in an effort to lure the Balkans up. The British warning to Bulgaria that she will turn her country into a theater of war if she allows the Germans to occupy her territory, appears to be an effort to squeeze the Bulgarians out of the Nazi orbit.

With this, Russia now is said to have advised Bulgaria to go slow in agreeing to German occupation, thereby reversing what is reported to have been the soviet's previous position. All this naturally has turned attention to Yugoslavia as the possible German alternative route for an attack on Greece, and the Yugoslavs are rushing to arms for defense.

The sum substance of all this is that Britain is trying, over German opposition, to line up all the lower Balkans in a bloc to resist the nazis, and possibly to open up a new battle front in this strategic zone, thereby relieving pressure in the battle of Britain.

The other critical situation of the moment rests in Japan's ultimatum to France that the Japanese proposed settlement of the French Indo-China—Trailand (Siam) border, was must be accepted as final. It is reliably reported that the ultimatum was accompanied by a threat of "forceful action" if rejected.

France's refusal to give up the territory demanded likely will result in Nippon extending, or trying to extend, her military occupation of French Indo-China. In short, all maneuvers are leading to the same goal—Japanese control of this country, which not only is rich agriculturally but would afford a fine naval and military base to counter Britain's Singapore. Also it lies only 600 miles from the Philippines.

As part and parcel of the diplomatic move, a demonstration in London yesterday when British Premier Churchill challenged his opposition in Commons to a vote of confidence. It is immaterial that this vote came on the not too hot issue of whether members of parliament appointed to posts abroad should be permitted to retain their seats.

If a Prime Minister is defeated on a vote of confidence he resigns and his cabinet follows. Churchill could have accepted defeat on the matter at hand without resigning, if he didn't make it a question of confidence, but he deliberately forced the vote, and received a unanimous O. K. from the house.

It was a daring performance, and rather typical of Churchill's supreme belief in himself. His purpose? Well, I should say undoubtedly it was to sound the note of unity among his people who have followed him so loyally through the valley of the shadow of death. That, and to notify the world of British solidarity and determination.

King Alfonso's death has nothing to do with it.

Crisis in Far East Also Moving Toward Climax

BULLETIN

Belgrade, Feb. 28.—(AP)—The Bulgarian parliament held an extraordinary 30-minute secret session late today, according to reports reaching Belgrade from Sofia.

A little later, the reports said, the cabinet met in urgent session, after which Premier Bogdan Philoff was received in audience by King Boris.

Civilian air-raid defense corps in Sofia and the provinces were said to have been summoned to report at 11:40 p. m. for "practice."

There was no official indication of the subject of the urgent consultations in Sofia, but reports circulate through the Balkans that Bulgaria would join the German-Italian-Japanese alliance, probably tomorrow.

(By The Associated Press)

German troops in battle uniform were reported moving through Bucharest today, while extreme nervousness prevailed in Sofia, capital of Bulgaria, that Adolf Hitler may be about to start his long-expected march into southeast Europe.

Telephone communication with Sofia was cut off for 23 hours until a single line was opened to Belgrade, Yugoslav capital, to night. Police cordoned the Bulgarian city, making it impossible for anyone to leave.

Sofia reported it still was impossible to communicate with Bulgarian provinces to ascertain what was happening along the Danube. An estimated 200,000 nazi troops have been reported massed on the Rumanian side of the river.

In the Far East crisis, France ignored the deadline on Japan's ultimatum demanding that French Indo-China yield great territorial stretches to Thailand or risk "forceful action" by Japan.

The hour of midnight passed in Tokyo (9 a. m. C. S. T.), with lights burning in the Japanese foreign office and officials gravely awaiting this first test of Japanese leadership in the East Asia sphere which the axis has allotted her.

Conference Called

But no reply came, and the Japanese summoned an extraordinary conference for Saturday morning at which French Indo-China representatives will be asked to explain the lack of an answer to this "final mediation proposal" by Japan.

As part of her devious moves southward, Japan chose to step in and mediate the sporadic border war in the jungles of western Indo-China between the French and invading Thais. Observers feel she expects to win military and economic advantages from both countries as her "reward."

There were new hints, from Europe, of the imminence of a German smash at England.

Unconfirmed reports from Vichy said Germany was removing the French population from the English channel coast, clearing a 22-mile strip, and some quarters declared it indicated final preparation for an attempt to invade the British isles.

These reports said the removals began in mid-February.

Channel Thrust Looked For

It was considered possible that the long-heralded thrust across the channel might coincide with the opening of a vast new German U-boat offensive, which Adolf Hitler declared would be unleashed in March.

The Germans said nazi warplanes were already taking a heavy toll of British shipping, sinking or damaging 28 vessels totalling 146,000 tons in the past two days.

"It will be a little more lively next week," nazi quarters in Berlin declared.

In addition to the aerial toll, the German high command said 22,000 tons had been sent to the bottom by a nazi submarine.

Japan has threatened "forceful action" unless France's Far East colony yields to her ultimatum.

The crisis was pointed by Japan's Emperor Hirohito receiving his war minister in audience—often a prelude to important Japanese military action.

Unconfirmed reports from Saigon, winter capital of Indo-China, said Japan had massed 51 warships in the Gulf of Siam and off southern Indo-China.

French Ready to Fight

Apparently determined to fight, if necessary, French troops and supplies moved to strategic points. Dispatches from Vichy, and

troop was officially chartered Jan. 7, 1932, when Mrs. Elmer Johnson, director of the Council of Girl Scouts of Rockford, Illinois, presented thirty-two girls with tenderfoot pins.

The activities of the Girl Scouts has been directed by a troop committee, which was originally appointed by the sponsor. Mrs. Luce Meeker who introduced Girl Scouting in Mt. Morris served as the first chairman of the Scout committee. However in 1935, a large committee was formed which represents all of the various organizations in Mt. Morris civic, religious and educational. The present organization includes a registered troop committee of sixteen members of which Mrs. L. G. Schaer is chairman.

From Jan., 1932, until Jan., 1937, Mt. Morris was under the supervision of Rockford Council of Girl Scouts and participated in all the projects offered by Rockford Council. Rockford stimulated interest in Camp Rotary and many girls attended the regular sessions of camping there. Mr. Morris girls joined Rockford in a trip to Washington, D. C. in 1932 and in the three-day trip to the Century of Progress exposition in Chicago in 1933.

In spite of the fact that Mt. Morris has been a Lone Scout since 1937, the organization has steadily grown until it includes three troops of Girl Scouts and two Brownie troops making a total of 102 girls registered at the national headquarters. Miss Compton of Moline and many leaders have attended courses in Belvidere, Rockford and Dixon. Mt. Morris is proud of the efficient troop committee, energetic leaders and enthusiastic Girl Scouts.

An enthusiastic meeting was held by the 129th Infantry band farewell concert committee on Tuesday evening with Chairman Dwight Sharer presiding and representatives of the following organizations present, Veterans of Foreign Wars, Royal Holden; Lynn Elliott, American Legion; co-chairman Frank Hilger, Ralph Mahoy, Business Men's League; and Junior Business Men's League, Harold Ridenour and John Gronewald; Kiwanis, Dwight Sharer.

Plans for the ticket campaign were completed. A thorough canvass of Mount Morris and surrounding communities will be made. The newspapers of northern Illinois are responding generously with publicity and there is every indication of a capacity crowd for the final appearance on Monday, March 10th, in Mount Morris of northern Illinois' our great military band before leaving for Camp Forrest, Tennessee.

From the band's large staff of soloists, Captain Bronson has selected Ward Clark, cornet; Dick Doyle, saxophone, Richard Bentley, trombone; and, as a special feature, Archie McAllister, junior, will head up the drum majorettes of the Mount Morris Community School band and give a baton twirling demonstration which, alone, will be worth attending the concert to witness. Mr. McAllister, son of the director of the world-famous Joliet High School band is a baton twirler of national reputation.

Musical numbers by the band will include the overture to "William Tell", the brilliant Spanish Suite, by LaCorte, "LaFeria"; the interesting thoroughly American "Rural Rhapsody", by Ira Vail. Captain Bronson was accorded the honor of introducing this number on the Grand Concert program of the American Bandmasters Association which will be held at Madison, Wisconsin, on March 2.

There will be novelty pieces and stirring military marches, including the immortal Sousa's "Stars and Stripes Forever" the official march of the Infantrymen, "Kings of the Highway" by General R. J. Burt and the "Kablegram", "Rise Shine", "On Our Way" and "Colonel Bill" by Captain Bronson.

The rate of increase in population during the decade 1930-1940 was less than half that shown in any previous decade since the first census in 1790. The greatest rate of growth, 36.4 per cent, was in the decade ending with 1810. The rate for the last decade was 7.2 per cent.

The decade from 1910 to 1920 showed the greatest numerical population gain of any decade. The increase then was 17,064,426, compared with an increase of 8,894,229 shown in the census.

Community Club Meeting
The Paw Paw Community club held a meeting on Friday evening at which many things of interest to the village and surrounding community were brought up for discussion. The matter of a public playground nearer to town where children might play either daytime or evening elicited the most comment.

There was a generally expressed opinion that the playing on the streets during the evenings when the stores are open is entirely too dangerous to be permitted to continue if possible to stop it. Many suggestions were made. Probably the one best received was that an effort should be made to acquire and fit out a piece of ground nearer the business district. This could be used by children as a playground either in the day or evening, and could also be used by adults as a soft-ball ground.

Two pieces of ground came in for consideration. The first was the property back of the buildings on the south side of Main street and reaching to the railroad land. The other was the land back of the business buildings on the north side of Main street consisting of considerably more than an acre and which is owned by several parties. Many ideas for the use and beautification of those two pieces were expressed.

The Woman's club had also been considering something along the same line and a committee consisting of Mrs. John Mortimer, Mrs. I. J. Collins, Mrs. Ivan Urish, and Miss LaBerta Stern, had been appointed to investigate the matter. President Lewis Rogers of the Community club appointed a committee consisting of Frank E. Nangle, Rev. James H. Hagerty, and Harley Rosenkrans, to confer with the committee from the Woman's club and find out if possible whether some feasible plan might be worked out to achieve the end sought.

Farewell Party
A farewell party was held at the Baptist church on Tuesday evening in honor of Mr. and Mrs. R. M. Bolden and son Dick, who will soon move from near Paw Paw to a farm near Geneva. A very good number were on hand for the farewell party. A program was presented, consisting of a devotional period, accordion music by Lois Tarr, a playlet given by the Men's council, and the remainder of the evening was spent in playing games. Light refreshments were served. Mr. and Mrs. Bolden were presented with a lovely gift.

P-T. A. Monday Eve
The Parent-Teacher association held a meeting at the school gym on Monday evening. A very good crowd was on hand to enjoy the discussions and the fine program presented. The musical program was put on by the Waterman schools, both chorus and instrumental numbers being given. The large audience greatly enjoyed the musical program. Following the musical period a round table discussion on parent-teacher cooperation was held. The Rev. James H. Hagerty led the period, with Frank Nangle, Clifford Wick, Mrs. Dale Rosenkrans and Mrs. H. C. Barton assisting.

Remodeling Town Hall
Work has been started on the remodeling of the Paw Paw village hall. The ceilings will be lowered to make the rooms easier to heat. Other work being done to improve the hall, is making a special room in the building, for the Red Cross work. The partition of the front room will be moved back for the purpose of making the front room larger and more convenient.

GIRL SCOUT NEWS
The early history of Girl Scouting in our country is a thrilling story of Juliette Low's tireless energy and boundless enthusiasm. All scouts are familiar with Mrs. Low's historic phone call to her friend Miss Nina Pope. Come right over, I've got something for the girls of Savannah, and all America, and all the world, and we are going to start it tonight." Thus the first troop was organized in Savannah, Georgia in 1912. In 1940 the total membership in the United States was 573,255. Dixon is represented with 278.

In 1927, a few months after the death of Mrs. Low, the Juliette Low Memorial Fund was begun in memory of her intense interest in the girls of all nations. International encampments in Canada, Switzerland and New York have been made possible by this fitting tribute.

In addition, this year, the Girl Scouts of America are sending to the Girl Scouts in England the following gifts, an ambulance, two mobile canteens, \$500 worth of yarns and ninety units of air raid equipment.

On March 11, the Juliette Low box of each troop will be present and the penny collection will represent Dixon's participation in the nation wide Juliette Low Memorial.

Scout windows, decorated to represent troop activities have been prepared each year with the cooperation of local merchants. These are being planned and will be described later.

In the last 40 years of ship-building in the U. S., gross tonnage of vessels launched, according to the census, has ranged from a high of 4,662,000 tons in 1919 to a low of 71,698 tons in 1933. In 1939, 1,405 vessels with a gross tonnage of 632,000 were launched.

The population of continental United States on April 1, 1940 was 131,669,275, according to the final count of the census.

Verna Mae Harris and Frederick W. Leake Wed Today

The Congregational church in Moline was the scene of a simple nuptial ceremony at 2 o'clock this afternoon, in which Miss Verna Mae Harris of Dixon, second daughter of Mr. and Mrs. W. H. Harris of Annawan, became the bride of Frederick W. Leake, Jr., eldest son of the Frederick W. Leakes of Amboy. The Rev. Mr. Brink, former Amboy pastor, read the single ring service.

Miss Harris wore white marquisette with lace trim, designed with long, full sleeves and a full, floor-length skirt. Her lace-trimmed veil of illusion, was held in place by a halo of seed pearls and orange blossoms, and was worn by her sister, Mrs. Forest LaGrow of Kewanee (Elita Harris) as a bride last October. Her colonial bouquet of white roses and white sweetpeas was tied with a shower ribbon of white satin.

Mrs. LaGrow was her sister's only attendant. Her floor-length gown of peach-colored net over taffeta, was designed with a short jacket, and she carried a colonial bouquet of pink roses and lavender sweetpeas.

Charles Biesman of Galea, Ill., served Mr. Leake as best man.

Following a dinner at the La Claire Hotel in Moline, Mr. and Mrs. Leake left for a week end wedding trip to Chicago. For traveling, today's bride chose a dress of brown sheer crepe, with matching accessories. Mink point trimmed her coat and muff.

After March 5, Mr. Leake and his bride will be at home at 211 Everett street. Mrs. Leake has been employed in the tea room at Sterling's Waigreen agency. The bridegroom is with C. K. Willett, Consulting Engineers.

Mrs. McGinnis, a graduate of Dixon high school with the class of 1936, is assistant fountain manager at the Ford Hopkins Drug company. Her bridegroom leaves March 5 with Company A, 129th Infantry, Illinois National Guards, for Camp Forrest, Tennessee.

GEORGE WASHINGTON SAID:

"Excessive partiality for one foreign nation and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and repudiated by those who suppose that the apodous, while its tools and dupes usurp the applause and confidence of the people to surreptitiously render their interests." From the Farewell Address.

Will Hitler Invade England?

Some comment has been occasioned because Hitler in his speech Monday, said nothing about his plan to invade England. In a previous harangue he remarked that the British had been wondering why he didn't try it, and added: "Don't worry; we'll come."

In his speech Monday Hitler said something highly significant, we believe. He mentioned additional submarines and promised renewed undersea warfare for the near future.

We all remember that we were told last summer that if Hitler could be held off until winter arrived, his hope of invading England would be gone forever, because during the winter the British with the aid of United States imports, would be armed so well they could stand him off.

Now that appears to have happened, at least in a degree. We surmise the British have prepared an intensely hot welcome for any Nazi tourists who may set foot on British soil while the war lasts. It doesn't make sense to think the British have hibernated all winter. It is reasonable to think that Hitler's spies in England—if there are any—have warned him to stay away at least for the present.

All this, of course, is written with the fingers crossed. People sitting on this side of the ocean have been fooled too many times by accepting the views of experts on the other side of the water. But winter would seem to be an ideal time to try an invasion. There are fogs through which invasion boats could slip unnoticed. The days are short and gloomy; the nights long, in which furtive work could be done. But Hitler hasn't landed. To say he will attempt it when the sun is shining brightly, and airplanes can spot every movement in the channel seems—at this distance—odd. But remember those crossed fingers.

If Hitler doesn't try an invasion now, what will he do? He is hardly of the temperament to

be content with a stalemate. So now he talks of submarines, perhaps of a new type. If Hitler's ships can shut off nearly all imports to England; if he can weaken them by reducing their food supply and their receipts of oil, and if he can bomb them consistently so as to make life seemingly unbearable, he might be able to weaken their staunch defense or their coast for a real invasion attempt next fall or winter.

Accordingly, the plan for a lightning thrust, as soon as spring arrives, seems to have been abandoned in favor of a process of starvation and blockade to "soften" the English.

British strategy seems to be the acquisition of vast stores of airplanes and munitions on the island for defense and for harassing German territory, and perhaps an offensive against Hitler through the Balkans with African troops. It is hardly in the cards at this time that the British would attempt an invasion of German-held France from England; for if it is hard for Hitler to land in England, it would seem equally hard for Churchill to land troops in France from England.

All this, of course, is guesswork; but there seems to be evidence that somebody's plans have been changed, and that somebody is not Churchill.

Pacific Monroe Doctrine

Japanese statesmen, in describing their "Asia for Asiatics" aims in the Pacific, have compared it with the Monroe doctrine.

There are some points of difference which the Japanese might as well consider. The Monroe doctrine was established primarily to protect the United States against the dangers of having a crowd of European imperialists forever fighting each other under our noses. If the Japanese fear that in Asia, then they may have a case.

But the United States never has manufactured incidents on which to base imperialist aims in South or Central America. In our Mexican war we intervened to reduce an unmitigated nuisance. In the Spanish-American war we broke the power of Spain and set Cuba free. Has Japan done anything like that with, or for, China?

Japan aims at land-grabbing, carried on by massacre. In this hemisphere we sought to maintain peace and order, and our record can be compared at any time with that of the Japanese—to our own advantage.

Taxing Soldiers' Cigarets

A nice legal problem has arisen with regard to the operation of post exchanges in the numerous military posts scattered through every state.

Has the state a right to tax cigarettes and other similar supplies sold through such agencies? It depends whether a post exchange is an instrumentality of the federal government conducted as a necessary part of army operation. A post exchange is usually a voluntary, unincorporated setup, virtually a non-profit co-operative, supervised by, but not actually run by, army authorities. If it is a federal institution tied in as an indispensable part of army operation, states probably cannot tax supplies sold through them. But if running a store is a mere convenience to soldiers, and its stocks are not the property of the United States, states may assert (and some of them have) their right to tax.

Army canteens and post exchanges are likely to be around for a long time in increasing numbers. Their volume of business will be an item. So there's one for legal wits to whet themselves upon!

Washington, Feb. 27—Hitler tried to make the world believe he and Mussolini had prepared a vast new swarm of submarines which would surround and defeat the British—apparently without necessity of invasion.

Der fuhrer is such a liar, his utterances are usually laughed out of the headlines, but this time the chuckles around here did not run very deep. Added information of what he is talking about has reached the well-informed. They do not believe it means what Hitler prophesied for Britain, but it will cause some difficulties.

Germany has perfected a plan devised by Italians for the mass production of subs only 110 feet long, less than half the size of the old German U-boat. It can be manned by 15 men, whereas the old 233 feet U-boat required a crew of 40, the seagoing U-boat (206 feet) necessitated a crew of 35, and the old coastal class (136 feet) needed 23 men. Furthermore this new shorter boat has 4 torpedo tubes whereas the coastal had 3, seagoing 5, and the big U-boat 6.

The Nazi production fanatics have tripled their capacity to manufacture these boats by their shipyard seizures in the occupied areas. How many they now have ready and coming out is not definitely known, but rather direct information indicated some weeks ago they were completing one a day. Some Nazi zealots have claimed these ships can be turned out in three months, but a more likely figure is six months, which is short enough when you consider our submarines like the old U-boats, required 16 to 18 months.

It has been fairly well established that Hitler now has far more of even large type submarines than the 70 to 100 attributed to him when the war started. A February check showed 120 completed and 180 building.

From this revealing information, the experts guess the Germans may be able to put three or more times their original war strength into the waters by spring when the seas calm and permit freer operation of the shorter vessels. While their radius is not great, they might be able to surround the British Isles and seasonally increase earlier war records of sinkings.

Such a development would start pressure for American convoying fast.

Roosevelt's objection to kicking out the Hobbs bill designed to let every government official be a wire tapper. The president pointed to the need for some restrictive authority even on the FBI in cases of sabotage, espionage, kidnapping and extortion. He thought Attorney General Jackson's O. K. would be enough. But there may be some question whether Jackson's acquiescence guarantees a valid non-political use of this un-American device. Congress may require confidential reports from the A. T. & T. to some truly non-political agency as to whose wires are being tapped and why.

Wendell Willkie and Senator Nye occupied adjoining news columns the same day, Willkie asserting with the utmost conviction that the sell-and-lease-or-give-away bill would save the country from war, and Nye insisting just as sincerely it will lead to war. To help straighten out the confusion of readers, the following is offered as a fair judicial interpretation:

The bill pledges this country to do whatever is necessary for a British victory. This is its whole purpose. If war becomes necessary it will be war; if a million planes become necessary instead of a few thousand, it will mean a million planes. The amount of money it is to cost or the consequences it is to entail are incidental to its single purpose—as will become apparent as soon as it is enacted. If you are going to commit yourself to another nation's victory, you must do whatever is necessary to assure that victory as a matter of course.

Former Commander of State Legion Gets Job

Murphy will take up his new post next Monday. Since 1920 he has been a member of the Bloomington law firm of Bracken, Livingston, Murphy & Barger.

Foreign Minister of Japan Seen in Missionary Role

Indications He Will Pay Visits to Several Foreign Capitals

(By The Associated Press)

New York, Feb. 28—Advises from the Orient indicate that Japan may be about to make another major diplomatic move, perhaps rivaling in importance her adherence to the German-Italian alliance September 27.

This is likely to take the form, the advice says, of a journey abroad by Yosuke Matsuoka, Japan's eloquent and energetic foreign minister, in the course of which he may visit one or more of the following cities: Hankow, Moscow, Berlin, Rome.

Latest developments, however, may compel a postponement of Japan's effort to further establish herself as the dominant power of "Greater East Asia" through imposing her plan for peace between Thailand and French Indo-China. The French are balking. Tokyo may find it necessary to act.

However, reports have been current for some days both in the Orient and Europe that Matsuoka is contemplating a trip to Berlin. A Berlin dispatch yesterday said there was "speculation in political circles" concerning such a visit but added that "plans are indefinite."

Today's advice says the evidence is increasingly convincing that Matsuoka is preparing to go abroad and add Hankow, Moscow and Rome to the possible itinerary.

Censorship Imposed

The government spokesman in Tokyo refused to discuss the reports. However, it is known that censorship has been imposed concerning certain of Matsuoka's activities.

The Indo-China crisis undoubtedly is claiming his major attention today. He is directing the Tokyo peace conference which, according to the Japanese press, now is considering Japan's "final mediation plan" calling for Indo-China to yield to Thailand large areas along their border.

The Japanese say Thailand is "cooperating" in the establishment of their "new order." The French apparently were not. The Tokyo press is calling for pressure to make them yield. Tokyo has ordered its nationals in French Indo-China to be ready to leave at a moment's notice. In Saigon Japanese leaders met to consider the crisis.

French submission, however, may end this crisis soon.

Possible Purposes

The advice from the Far East indicate that if Matsuoka does journey abroad the possibilities of his mission may cover almost the whole range of power politics. It may be a peace mission, in keeping with his recent expressions of readiness to act as peacemaker anywhere in the world. It may seek to free Japan's hands for new enterprises. Experienced observers believe Matsuoka might have these purposes in visiting the cities named:

Hankow: Attempt to make peace with China's Generalissimo Chiang Kai-Shek, perhaps meet Chiang face to face in an effort to end the war, now nearly four years old, that keeps an army of 1,000,000 in China.

Moscow: Try to speed up current trade and other negotiations with the Kremlin, perhaps even negotiate the non-aggression pact with the Soviet which Japan is known to desire in order to free her rear from the danger of a Russian blow.

Berlin: Either to strengthen Japan's ties with the axis and discuss a common program of action against Britain and perhaps the United States or explain to Adolf Hitler and his aides why Japan does not desire now to plunge into the war against the British empire despite the treaty of Berlin.

Bystander Shot During Holdup in Joliet Today

Joliet, Ill., Feb. 28—(AP)—The Di Lorenzo Travel Agency was held up again today—that's almost a regular occurrence—but this time a bystander was shot through the knee in a gunfight with one of the robbers.

Two youthful gunmen attempted to rob Ann Di Lorenzo, daughter of the owner, Emil Di Lorenzo, but she struggled with them. A brother-in-law, Sylvester Cirrone, heard the commotion and appeared with a gun. The robbers fled in different directions, one shooting Josiah Trehan, 50, through the knee in exchanging shots with Cirrone.

Both men escaped. They obtained no loot. The agency has been held up frequently in recent years. The last time was in December when the robber netted \$1,000.

Of the 174 iron-ore producing mines in the U.S., according to the Census, 68 are in Minnesota. 41 in the Michigan-Wisconsin area. 31 in Alabama, four each in Georgia, Missouri, New Jersey, New York, and Pennsylvania; three in California, New Mexico, Texas, and Utah.

Full Parity Plan Winning Support, Proponents Claim

Washington, Feb. 28—(AP)—A broad price-pegging plan for government loans to boost sharply the prices of major farm crops had public support today from Senators Bankhead (D-Ala.) and Russell (D-Ga.), two important figures in the previous agricultural programs of the administration.

The proposal calls for full "parity price" loans of 100 per cent on cotton, wheat, tobacco and rice, and 85 per cent on corn, and some of its advocates believed it would win approval soon from the officials directing the present Federal farm program.

There was no immediate comment from these farm program sources but it was indicated that administration leaders might disclose on March 8 whether any material change is planned in crop control policies.

Plan Celebration

President Roosevelt, Vice President Wallace and Secretary of Agriculture Wickard are scheduled to make radio addresses that day to numerous farmer gatherings which will observe the anniversary of the 1933 call that brought agricultural leaders to Washington to draft the first AAA act.

The "full parity" plan, sponsored by Bankhead, got its first hearing before the Senate agriculture committee yesterday, and Bankhead said at its conclusion that he was confident it would be reported favorably to the Senate "within the next 10 days."

Russell, who has steered most major farm appropriations through the Senate in recent years, announced he favored the price-fixing loan proposal "with some minor amendments."

Iowa Farmer Found Guilty of Deaths of Brother, Sister

Knoxville, Ia., Feb. 28—(AP)—On trial for the third time in connection with the shotgun deaths of his brother and sister's wife, Matt Melia, 44, was convicted yesterday of manslaughter.

The Attica, Ia., farmer was unmoved as the jury, which recommended leniency, returned the verdict after deliberating more than 22 hours.

A bachelor, Matt had contended in all three trials that he shot his brother, Joe Melia, 51, in self defense after they had quarreled over feeding the hogs on the farm on which the brothers and the second victim lived. Joe's wife, Josephine, 31, was shot accidentally when she ran between the two brothers, the defendant testified.

Matt was acquitted of the first of two murder charges when tried for the slaying of Joe but the jury disagreed in his second trial last December for the slaying of Josephine.

Matt told again in this trial of shooting the pair, throwing the bodies into a 60-foot well, and then giving himself up to officers.

Tragedy Stalked King

Alfonso and his wife were estranged for many years.

For years they had appeared together only in public ceremonies, such as weddings of their children and the baptism of their grandchildren.

Alfonso was something of a playboy, with a fondness for dancing, polo, bull-fights, yachting and fast driving.

His eldest son, Alfonso, Prince of Asturias, died in Miami in 1938 after an automobile accident. He was a victim of hemophilia, hereditary affliction marked by the failure of blood to coagulate. His youngest son, Prince Gonzalo, died in 1934 after minor injury in an automobile accident in Austria.

His second son, Prince Jaime, was born deaf. Because of this affliction Jaime renounced his rights to the succession. There also were two daughters, Princess Beatrice and Princess Marie Christina.

Alfonso XIII, Once Monarch of Spain, Dies in His Hotel

Heart Attacks End Life Marked by Series of Stark Tragedies

(By The Associated Press)

(Picture on Page 1)

Rome, Feb. 28—Alfonso XIII, 54-year-old former monarch of Spain, died at 11:50 a. m. (3:50 a. m. C. S. T.) today in the hotel room which had been his home in exile for a decade.

He suffered a series of heart attacks beginning on Feb. 13 and had been sitting in a chair for the last seven days, too weak to be placed in bed. His mind was lucid and he was cheerful until the last.

At his side when he died were his queen, Victoria, from whom he had been estranged for many years; his son and designated heir to the Spanish throne, Don Juan; another son, Don Jaime; a daughter, Beatrice; three doctors; and a Spanish Jesuit priest who administered the last rites of the Catholic church when death seemed inevitable Feb. 22.

Another daughter, Maria Christina, was summoned from Turin but was unable to reach Rome. She is expecting a child.

Alfonso was king from his birth, May 17, 1886, and reigned until April 14, 1931—a period marked by turbulence and political unrest which finally broke into civil war in 1936, when Spain was a republic.

Alfonso left Spain April 15, 1931, after signing a manifesto expressing his conclusion that anti-monarchist election results showed he no longer had the love of his people. But in his own estimate he remained King of Spain.

Hoped to Regain Throne

He declared again and again, "I will never abandon my throne." His hope and prediction were that some day he would return.

His final yielding, dated Jan. 15, 1941, was a renunciation of the throne in favor of his third son, Don Juan. This announcement was issued Feb. 13 when he already was under treatment at a Rome hotel for a heart condition.

Alfonso was the posthumous son of Alfonso XII, and was under the regency of his mother, Queen Maria Christina, until at 16 he ascended the throne. He was married May 31, 1906, to the English princess, Victoria Eugenia of Battenberg.

The wedding cost \$10,000,000 but the day was marred by the first of eight attempts on Alfonso's life. A bomb, hidden in a bouquet, was thrown at the royal carriage after the wedding ceremony and 24 bystanders were killed. A splinter hit the King.

WELL, I'LL BE DOGGONED!

John Roe and Oliver Rogers will testify to one of the strangest stories of bowling ever to come our way and which certainly rates underscoring in the books. Harry Bates, manager of the "number-please" bureau here, gets credit for an accomplishment which is rare in the annals of the pin-spilling game. Harry rolled the first ball for a strike in a three-way match Wednesday afternoon. He picked up one pin with four more balls which gave him a "remarkable" 12 in the third frame. None of his henchmen will divulge his final score.

DIXON VS. OREGON

Contracts have been signed for a football game here on September 12 between the teams of Dixon and Oregon. It will be the first time that the representatives of the North Central and Rock River conferences have tangled—at least within modern history limits. Two games will be played—sophomore and varsity contests.

TUT-TUT, FREEPORT

George Schunk, Sports Ed of Freeport, writing in "Off the Record" quotes our recent report from our Sterling pal that the Freeport fans were rough handlers. "The charge," he writes, "is well substantiated as far as the cheer leaders were concerned but the lack of sportsmanship" could probably better have been turned lack of consideration. . . . The students were the offenders Saturday night but adult fans were at fault Friday when their continual booing caused officials Ashley and Singer to award West Rockford an extra free throw. . . . Seven or eight years ago a similar technical foul on the crowd cost Freeport an important lightweight game. . . . Remember fans."

MONOTONOUS, AIN'T IT?

George Bishop was certainly in the groove last night at the bowling alleys when he rolled three games of identical scores for his Reynolds Wire mates. George counted 158-158 AND 158. Ho-hum.

THANKS A MILLION

Bert Cummings, manager of the Dixon Knacks and promoter of the Globe Trotters game here last night, today wanted it known that he thanks each and every one who helped make last night's show such a big success. Included in his bouquet-tossing are all those who helped sell tickets and the officials of the high school and their staff who handled the record crowd so well and were generous in their aid.

STIRRING UP A RIOT

The Dixon Telegraph "Hot Shots" (bowlers, to you) will meet the Cahill's "Has-Been" in a postponed Commercial League match at the Dixon Recreation Tuesday night at 9 o'clock. Willard Jones & Company will match performance with Friday Shultz and his tag-alongs.

MATCH GAMES

Another heavy schedule of bowling matches is planned for Dixon reglers with games here and out of town. The local parade begins with a feature event tonight in which the Oregon reglers meet the Dixon Recreation 21's at 9 o'clock. On Sunday the Dick's Tavern team of Amboy meets the Ohio quintet at 2 o'clock. At the same time the Davis Garage Five of Oregon rolls the Dixon Recreation 21's. At 3:30 the Rainbow Inn ladies meet the Rainbow Inn men. The out-of-town matches begin on Saturday when the Dixon ladies meet the LaSalle women at 7 p. m. and the Plum Hollow team meets the LaSalle Westclox outfit at the same time. At 9 o'clock the Dixon Recreation meets the Westclox Big Ben and the Dixon Recreation All-Stars roll the Westclox Baby Ben team.

GREEN WITH ENVY

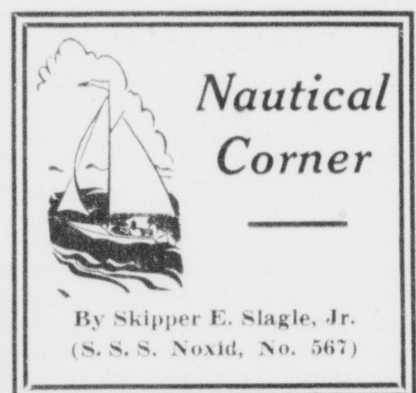

Mr. and Mrs. T. J. Miller will go to Madison tomorrow where they will be week end guests of friends and will attend the all-important Minnesota-Wisconsin basketball game.

GIDDAP!

That piggy-back stunt in which butcher-boy Paul Potts was the red-faced victim of a rough-riding Globe Trotter last night was one of the highlights of the show and a pre-arranged bit of continuity. The Trotters' molesting was taken good-naturedly by the Dixon players who seemed to be having as much fun as the visitors.

BELL TIME

On board every boat from the largest liner to the smallest sailing schooner, time is told by the ringing of bells at every half hour. As bell time just runs up to 8 bells, the day is divided into watches; seven, to be exact.

Starting at 12 o'clock noon until 4 o'clock p. m. is the afternoon watch; from 4 o'clock p. m. until 6 o'clock p. m. is the first dog watch; from 6 o'clock p. m. until 8 o'clock p. m. is the second dog watch; from 8 o'clock p. m. until 12 o'clock midnight is the first night watch; from 12 o'clock midnight until 4 o'clock a. m. is the mid watch; from 4 o'clock a. m. until 8 o'clock a. m. is the morning watch, and from 8 o'clock a. m. until 12 o'clock noon is the forenoon watch.

Bell time on board ship is rung every half hour starting at 12 o'clock noon.

At 12:30 one bell is struck and

at 1:00 2 bells are struck. This continues on around the clock adding 1 bell every half hour. When 8 bells are struck the procedure starts all over again. Therefore, four o'clock, 8 o'clock and 12 o'clock will all be 8 bells but in a different watch as explained above.

When bell time is yelled on board ship it is done like so: "Four bells in the forenoon watch." Bells are struck in pairs and in case of uneven number the single one will be struck at the end. Bell time has been used ever since the middle ages to tell time on board ship.

By SID FEDER

New York, Feb. 28—(AP)—Dr. Lew Jenkins, the specialist in knockout drops, will attempt to give Lou Ambers a second injection tonight in Madison Square Garden to see if he can make the first one stick.

The Texas thumper flattened laughing Lou last May in three rounds, and expects to equal par for the course tonight, although it's scheduled for ten rounds. For Ambers, it's either reverse that verdict or go back to the laundry in Herkimer, N. Y.

One of the nicest little guys in the not always so sweet business of bashing beaks, Ambers definitely is at the crossroads this time—and Jenkins is the traffic cop.

For this reason, so much interest has been attached to the match between the Herkimer thumper, who ended gallant Tony Canzoneri's reign, and the Sweet-water swatter, who ranks among the most dangerous punchers among little men for all time, that the Garden is going to do a rush business. Promoter Mike Jacobs wouldn't be at all disappointed if some 15,000 of the faithful were on hand when the feature fireworks start at 9 p. m. (CST).

Except for Ambers, Manager Al Weill and possibly young Luigi d'Ambrosia, Jr., for whose arrival Lou assed out the cigars last year, not even the laughing boy's bosom pals think there's much hope for him this time. Jenkins, whose only setback since amputating Ambers' crown came at the hands of Henry Armstrong, is a 1 to 3 favorite to win and even money to do it the hard way—by putting the

crusher on Lou somewhere along the route.

This corner goes along with that idea, picking Jenkins inside of five rounds.

Byron Hosts Trip Harmon Cagers in Tournament Game

GAMES LAST NIGHT
Byron 59; Harmon 33.
Kishwaukee 17; Stillman Valley 16.

GAMES TONIGHT
7:30—Lee Center vs. Leaf River.
8:45—Byron vs. Kishwaukee.

The 1940-41 basketball season came to an abrupt halt for Little Harmon of Lee county and Stillman Valley of the Route 72 conference last night as each was a victim in the Byron district tournament.

The host cagers had little trouble in tripping Harmon, 59 to 33, and Kishwaukee nosed out Stillman Valley in a heart-breaker for the losers, 17 to 16.

In the first game the Byron quintet was paced by three players—H. Himes, Kintigh and Johnson—each of whom scored 10 points. The winners outscored the Harmon crew in every canto and led 31 to 12 at the half.

High scorer of the game was Smallwood of the losers with 12 points on five field goals and two charity shots.

Nightcap Thriller

In the nightcap game Kishwaukee led, 7 to 4 at the end of the first quarter and the game was knotted at 8-all at the half. The Valley lads were held scoreless in the third period while Kishwaukee made two points. In the final and thrilling periods, the losers outscored the winners, 8 to 7, but failed to get the necessary victory margin.

High scorer of the game was Norem of the losers who collected 12 points on five field goals and two free throws.

Tonight in the semi-finals the Lee Center cagers meet Leaf River in a match of power which should produce one of the best games of the tournament. In the second game of the twin bill the Byron hosts play Kishwaukee at 8:45 o'clock.

DISTRICT CROWNS WILL BE DECIDED IN SOME CENTERS IN CAGE GAMES TONIGHT

(By The Associated Press)
District championships, the first step for many Illinois high schools in the climb toward a state basketball title, will be decided in a number of centers tonight. At others the campaigning will continue through Saturday.

Home and Melvin were among the ranking district favorites to reach the finals in their respective centers last night. Homer trounced Tolono, 55 to 18, at Mansfield, while Melvin downed Strawn 50 to 36 at Sibley.

Other topnotchers among the smaller schools that advanced included Palestine, Milton, Bethalto and Findlay.

Mulberry Grove, which rang up 93 points Wednesday night, barely missed being relegated to the sidelines as it defeated Ramsey, 35 to 34.

There was only one overtime struggle, Newark losing to Leeland, 34 to 31, at Serena. The same district also provided the top score of the evening with Somonauk's 66 points until a later return from Campbell Hill showed Percy with 67.

Sports Roundup By EDDIE BRIETZ

New York, Feb. 28—Coaches Tom Lieb and Charlie Bachman of Florida and Michigan State, are commiserating at Gainesville—each stands to lose five guys in the draft who will make or break their football teams. Coast pals of Lou Novikov say he was offered only \$4,000 for 1941 despite his \$150,000 purchase tag. And Bill Lee, principal factor in the Cubs' 1938 pennant drive, says his salary has been slashed \$7,500 in two seasons and he faces another \$2,500 cut if he doesn't report at camp.

Today's True Story

Jockey Johnny Adams had seven mounts scheduled at Agua Caliente last Sunday. At the last minute he found he couldn't make it down from Santa Anita in time. So Trainer Leo Haskell was forced to take off seven horses and find new riders for each and every one. But here's the pay off. Sounds unbelievable, but every one of those seven nags won.

The Answer Man

Prof. Claude Wolff of this office is hard to stump. He knows all the answers. He's been reading about the poor big leaguers who fear that if they join the army for a year, they'll have a tough time getting back into baseball. Prof. Wolff admits he almost sprained his brain coming up with an answer to that one, but by gad, he did it. "Let the ball players keep on ball playing," he says, "but at \$21 per month, just what they'd get in the draft army. They could give the difference between that and what they ordinarily would be paid, to a charity. Not much of a price, sure, they'd save their jibs." Professor, you have something there.

Suspension of Judge Holland's License to Practice Law is Urged

Springfield, Ill., Feb. 28—(AP)—The Board of Managers and Grievance Committee of the Chicago Bar Association recommended to the Illinois Supreme court today that Municipal Court Judge Eugene J. Holland's license to practice law be suspended for two years.

The report and recommendations of the investigating body declared that Judge Holland's conduct was "unprofessional, unethical and dishonorable" in refusing to testify before a Cook county grand jury whether or not he had had business dealings with Edward J. O'Hare, a race track operator who was slain in gangland fashion on Nov. 8, 1939.

St. Louis Policeman Finds His Hunch O. K.

St. Louis, Feb. 28—(AP)—When a youth asked for lodging last night, police Sergeant Levi Copeland had a hunch. He checked the record room and found the applicant was a fugitive. Confronted with the facts, the officer said the youth admitted he was Scott M. Whiteside, 21, who escaped Feb. 3 from the Illinois state farm at Joliet where he was under sentence for vagrancy.

Belvidere Hit-Run Driver is Convicted

Belvidere, Ill. —(AP)— Arthur Pease, 56, was convicted by a Boone county Circuit court jury of manslaughter in the hit-run automobile death of Mrs. Oliver Sands, 54. The woman was struck January 21 and Pease, a Belvidere electrician employed at Camp Grant, was arrested two days later in a Rockford tavern.

RESUME JUMPING RACES

New York — Jumping races, dropped from the card during 1940 when the running strip was cut down to a one-mile oval, will be resumed at the Aqueduct track's summer meeting, June 9 to July 2. A new steeplechase course is nearing completion.

GRIDDER NOW PILOT
Chicago—Steve Toth, who was fullback on Northwestern University's Big Ten championship football team of 1936, is now a commercial airline pilot between New York and Chicago. He is a graduate of the naval air training school at Pensacola.

KNACKS LOSE BY 2 POINTS IN FINE 4-ACT COMEDY

Rochelle Defeats Dixon State Hospital in Preliminary Game

No dusky hooters in blazer jackets ever put on a better vaudeville show than that which convulsed some 1500 persons here last night when the Globe Trotters professional basketball team defeated the Dixon Knacks, 38 to 56, with four acts of song, dance and patter in the high school gymnasium.

Combining their high comedy talents with genuine basketball skill, the show was completely satisfying in every respect and turned the hectic game of basketball in to a medium for sheer entertainment.

Although the Dixon Knacks played excellently last night, the score is also part of the comedy. The court clowns could have run up a massive total against the Dixon club for they have the ability to score almost at will. Instead, as part of the show, they kept pace with the Knacks and frittered away much of their time which could have been spent in smothering their opponents.

GEMS OF THOUGHT CHARACTER

When the late J. P. Morgan was asked what he considered the best bank collateral, he replied, "Character."

—Ramsey MacDonald.

Character is the result of two things: Mental attitude and the way we spend our time.

—Elbert Hubbard.

A good character is, in all cases, the fruit of personal exertion.

—Joel Hawes

As in the flora kingdom odors emit characteristics of tree and flower, a perfume or a poison, so the human character comes forth a blessing or a bane upon individuals and society.

—Mary Baker Eddy.

To be worth anything, character must be capable of standing firm upon its feet in the world of daily work, temptation, and trial; and able to bear the wear and tear of actual life.

—Smiles.

Let us not say, Every man is the architect of his own fortune; but let us say, Every man is the architect of his own character.

The Purpose of The Lenten Service

By C. L. WAGNER, Pastor
IMMANUEL LUTHERAN CHURCH
521 Highland Avenue

Luke 18:31 "Behold, we go up to Jerusalem, and all things that are written by the prophets concerning the Son of man shall be accomplished."

Again we are called upon to accompany our Lord and Saviour, Jesus Christ, in spirit, on that last trip to Jerusalem, on the Via Dolorosa, the way of sorrow; to contemplate the various things He did and suffered, in order that you and I, and all mankind, might be free from the curse of sin, from the bonds of Satan, and from the fear of hell.

We are to go with Him to Gethsemane and witness the terrible struggle of the flesh against the burden laid upon the Innocent One; the victory over the weakness of the flesh; the betrayal by Judas; the arrest; the travesty of justice in the courts of Annas, Caiaphas, Herod and Pontius Pilate; the scourging; the ascent of Calvary bearing the cross; the crucifixion; and finally, the death of the Son of God.

Merely to review the story and the scenes of our Saviour's Passion, however, is not enough. Merely to have our emotions stirred and our eyes wet with tears at the cruelty and injustice meted out to our Saviour is not the purpose of the Lenten season. Our Lenten services and devotions, our reading and meditation upon the Lenten story should produce more than tears of pity and feelings of horror. It should cause us to bow our heads in shame. It should move us to sincere sorrow and heartfelt penitence. Why? Because it was your sin and my sin, as well as the sins of others, that caused all this pain and misery and the death of our Savior.

"Ye who think of sin but lightly, Nor suppose its evil great, Here may view its nature rightly, Here its guilt may estimate. Mark the sacrifice appointed, See who bears the awful load! 'Tis the Word, the Lord's Anointed,

"Yes, 'The Lord hath laid on Him the iniquity of us all.' Isa. 53:6. 'For he (God) hath made Him (Jesus) to be sin for us, who knew no sin; that we might be made the righteousness of God in Him.' II Cor. 5:21.

Therefore, rejoice and sing, ye sons of men, for by His suffering and death the wrath of God against sin has been appeased and we are made the children of God through faith in Him. (This article appears in the Dixon Telegraph through arrangement with the Dixon Ministerial Association. A devotional article for the Lenten season will appear on the church page each week during Lent.)

Airforce in Alaska Being Strengthened

Washington, Feb. 27.—(AP)—Strengthening of United States airforces in Alaska was announced today by Secretary Stimson.

The war department chief told a press conference that three additional Air Corps units had left the west coast recently for Alaska and that three additional units were scheduled to leave within the next two months.

He declined to disclose the strength of these units in men and planes, declaring:

"I don't like to make the war department a center of specific information to go to our friends abroad or to our non-friends abroad."

Ginger Rogers and James Stewart Win "Oscars" for Year

"Rebecca" Voted Best Picture; John Ford Best Director

Hollywood, Feb. 28.—(AP)—A nimble footed Charleston dancer turned dramatic and a lanky actor Hollywood once kept buried like a case ace are the new queen and king of the movies.

Ginger Rogers and James Stewart are their names. They are the newest winners of the awards signifying best given by the Academy of Motion Picture Arts and Sciences.

Ginger was better than any of her acting sisters in 1940, her fellows believe, because of her portrayal in "Kitty Foyle".

And Stewart impressed them by his work in "The Philadelphia Story".

They, as well as a score of others, were called to the podium of a banquet hall jammed with celebrities and fellow workers last night to be handed statuettes a foot high which have been dubbed "Oscars".

"Rebecca" was the year's best motion picture, in the opinion of the academy's 12,000 voters.

The award for the best performance by a supporting actor went

to Walter Brennan, who played Judge Bean in "The Westerner". Jane Darwell was voted the best supporting actress for her characterization of Ma Joad in "The Grapes of Wrath".

The director of "The Grapes of Wrath", John Ford, won the director's award.

Hear Roosevelt

This, the 13th annual award party, was highlighted by a radio address by President Roosevelt from the White House directed to the motion picture industry. He said he wanted to place emphasis on the service you can render in promoting solidarity among the peoples of the Americas and in thanking the industry for its support of the defense program.

Miss Rogers, who was a son and dance girl during her early movie days, has taken slow certain steps toward the histrionic heights she reached in "Kitty Foyle". Her real name is Virginia McMath and she was born in Independence, Mo., 30 years ago, come next July, but she was reared in Ft. Worth, Texas.

Under contract for months to M. G. M. studio, Stewart wandered around the lot hoping he'd impress some director.

They thought he was too lanky that his face was too long, that his lower lip was too prominent. But in one small role he clicked and his personality has been registering since.

SIGNS HAVE MOVED

When astrologists say we are in the sign of Gemini, the sun is in the sign of Taurus. At one time, the "signs" of the Zodiac agreed with the "constellations" of the Zodiac, but due to procession of the equinoxes during the last 2000 years, each sign has moved into the constellation west of it.
